

FM_R_XP - Full Colour Face Mask with Reflective Strip

A stretchy and super comfy double-layered polyester face mask with a full colour print and 20mm grey reflective strip on 1 side. The strip allows for greater visibility in the dark and can be positioned in various ways to better suit the design.

This soft but durable mask helps protect the wearer from viruses and bacteria while still allowing them to breathe normally. It has space between the layers for adding an additional filter and can be washed at high temperatures and reused repeatedly with no loss of effectiveness or damage to the personalisation.

Fitted with black elastic bands for securing the mask comfortably behind the ears.

Standard size: 200x150mm.

Also available without a reflective strip.

Wearables range from socks and laces to bandanas and beyond. Attractive clothing and accessories don't only fulfil their standard functions but also make fantastic promo or retail products when personalised.
