

Official Color Sequence

Rubik's Cubes are required to follow the Rubik's Toy color layout. If your design includes 2 or more panels with colors similar to the toy (white, red, orange, yellow, blue and green), then those will need to be arranged closest to the layout on the left

Official Rubik's Logo

Rubik's logo and legal line can be placed on any of the panels in color or outline (see "Rubik's Logo" layers)

CYAN MAGENTA YELLOW BLACK DIECUT
