

MAGIC008 - Magic 360 Round

A simple but striking Magic 360 Round printed full colour on all sides. This tower-shaped item consists of 3 separate stacked cylindrical blocks held together by magnets. These blocks can be spun when stacked as well as taken apart and stuck back together in a rearranged order.

The standard template creates 9 panels (each cylindrical block has 1 long rectangular side panel as well as circular panels on the top and bottom). Bespoke templates can divide these to create more panels. See our [calendar templates](#) here.

The blocks are made of durable black HIPS recycled plastic covered with matt labels.

Fitted with a magnetic closure and individually shrink-wrapped as standard.

Optional extras: anti-scratch labels/plain white or branded paper box/AR.

Also available with 4 or 5 blocks (please enquire for details).

The Magic Concepts range represents the pinnacle of highly engaging and intelligently designed multisensory 3D media. These magical folding and twisting puzzles provide the perfect way to effectively communicate anything from product launches or anniversaries to company values and corporate training.
