LAN-BIN - Cardboard Recycling Bin (UK Made)

Strong open cardboard recycling bin printed all over in a full colour digital print. Perfect for those wishing to collect and recycle single use polyester or RPET lanyards and wristbands after large events such as conferences, exhibitions and festivals.

This is a key element of the **closed loop recycling** process which has revolutionised the whole approach to the supply of lanyards, especially for large single use events.

Why not order an exhibition pack including **recyclable polyester based lanyards**, **Lan-Key Keyrings** made from recycled exhibition lanyards and a few of these helpful recycling bins?

Lanyards help hold and display ID badges or security passes and carry small items like keys. They're used day-to-day by many organisations and for all sorts of special occasions, from conferences and exhibitions to sports and entertainment events. This makes them an affordable and highly effective marketing tool.

Product Specification

Minimum order quantity: 1

Dimensions: 300mm x 800mmx 2.3mm

Product weight (each): 910g

Fitting:

Material: cardboard

Colours available: full colour

Product Conformity

We can arrange a Declaration of Conformity (DOC) certificate detailing the conformity and responsibility the Company takes on board regarding the safety of the product in question.
