

Official Color Sequence

Rubik's Cubes are required to follow the Rubik's Toy color layout. If your design includes 2 or more panels with colors similar to the toy (white, red, orange, yellow, blue and green), then those will need to be arranged closest to the layout on the left

Official Rubik's Logo

Rubik's logo and legal line can be placed on any of the panels in color or outline (see "Rubik's Logo" layers)

CYAN MAGENTA YELLOW BLACK DIECUT

Panel Orientation

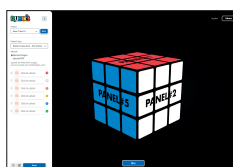

Panel 4 should be rotated 180 degrees, this only for production reasons

57mm Rubik's 3x3 - Promo 16.48mm

The black blocks are made from 100% upcycled ocean-bound plastic. This is 5x more eco-friendly than virgin PET*

Visualize and share your design in 3D (in 5 min or less)

- 1 - Open the link and Signup (free)
- 2 - Check your email for a message with a login & password (check your spam folder too)
- 3 - Log in, click "upload PDF" and upload your design (exported as PDF using this template, with die-cut layers hidden)
- 4 - to generate a sharable link, click "SHARE" button on top right
